SerControl manager

Simplified pc operating programme

The SerControl manager from SERCOM is a modern, simplified pc operating programme. Anticipating regulatory behaviour of the process computer is simplified and made clearer.

Optimal overview and control of the crop is of great importance in greenhouse horticulture. With direct access to the digital manual, the SerControl manager offers you the right tools to quickly and efficiently view and change measurements and setpoints.

Are you interested? Let SERCOM know by sending an email to: sales@sercom.nl. We can also send you a Sercom demo, with no further obligation.
