

SERCOM*munication*

#1 - September 2019

Dear SERCOM relation,

With the renewed SERCOMmunication we would like to resume an old tradition. The form is adapted to today's preferences and by clicking on the link below each topic, you can select the topics that appeal to you the most.

Mobile greenhouse with Wireless Xtender

We recently received the assignment to equip some roll-up (mobile) greenhouses in Noord-Holland (Dutch province), with our wirelessly-controlled field stations. The grower, Klein Canada, will have 7 individual greenhouses controlled and managed by the Wireless Xtender.

100th "SERCOM" in Scandinavia

Earlier this year, GRIMME, our partner in Denmark, installed the 100th SERCOM climate computer in Scandinavia. This system has been delivered to Baggessvogn Gods, a major producer of potatoes. The climate computer is used for storage cells with a capacity of 250 tons of potatoes.

New beating heart for climate computers

One of the most unique features of our climate computers is that any system that is still operating can be provided with the most recent version of the software we have developed. We recently went one step further and presented our latest ARM processor print.

New Russian partner for arable storage cells

SERCOM also remains active within the arable farming and there is an important expansion. In addition to the successful collaboration with GRIMME, we have recently entered into a partnership with AgroSave. This is a renowned supplier of storage cells for potatoes, vegetables and fruit in Russia.

Software subscriptions: a great success

We recently launched the possibility to purchase software options in the form of a subscription. Our software offers many different options, but not every SERCOM user actually wanted to use all the options in our package. This gave us the idea to offer this in subscription form.

If you have any questions about a subject that we brought to your attention, please feel free to contact us. With the continuation of SERCOMmunication we will share many interesting activities and developments within SERCOM with you. We hope that you will enjoy reading them.

Sincerely,
The Passion for Control team
