

Dear SERCOM relation,

We would like to wish you a prosperous and healthy 2020! A new year means a new edition of SERCOMmunication. After reading this newsletter you will be fully up to date about the latest developments.

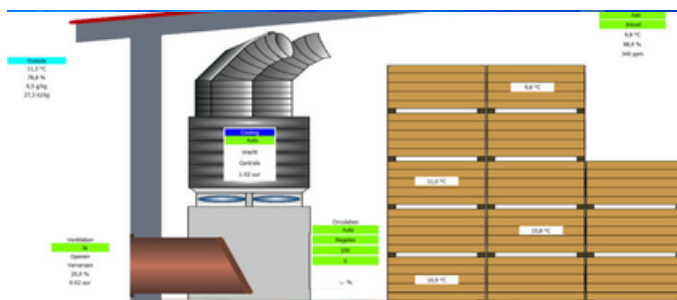

NCU new Chinese partner

We recently signed contracts for a long-term partnership with the Chinese company NCU. They will distribute our climate computers and our irrigation systems in China.

This will happen under the flag of Dutch Tech, a company specially created for this mission.

Ten new climate computers in Germany

After the recent cooperation with the German company Van Amerom GmbH, this partner already sold and delivered 10 new climate computers. All of them within two months.

What makes it particularly special is the fact that two of these computers are equipped with the Wireless Xtender

Wireless debut in the USA!

At the end of September 2019 we received the definitive order from a renowned producer of cut flowers in the United States: Holland America Flowers. This company has facilities in the states of Washington and California. At the California location, various types of flowers are grown on more than 30 hectares.

SERCOM enters British horticulture sector

The third quarter of 2019 marks the point that SERCOM supplied the very first climate control computer system in a greenhouse in England.

Owner Oliver Wass of Olivers Plants in Colchester, chose us as the supplier of an SC800 climate computer, at his nursery.
