- » SC400 gets new processor board

Dear reader,

It is time for a new edition of SERCOMmunication. This includes CloudVision, our interface for the new generation of process computers.

Great interest in CloudVision

In January, we introduced our CloudVision software and the new options within SercoVision. With these options significant savings can be made in energy and water consumption.

Want to become a Sercom dealer?

Are you (or do you know) a technical company or individual working in greenhouse horticulture, the storage of fruit and vegetables or in fruit production and are you interested in representing SERCOM locally? Please contact us at sales@sercom.nl.

Wireless system in Heemskerk (NL)

Last year Ton Bakker retired. He was one of SERCOM's first dealers and he left behind a customer base that depended on his service. Sercom dealer Installatieburo Eval bv from Rijnsburg in particular is now active in this region.

Dealer day 2023

On March 29, we organised a dealer day for the Dutch dealers. Our German dealer was also present. Attendance was high and important new developments were presented.

GreenTech Americas

From 12 to 14 March we were at the GreenTech Americas fair. The fair took place in Mexico. Mexico has become an important sales area for SERCOM.

Sercom at various schools

A Sercom process computer will soon be installed at the Yuverta in Naarden (NL). This is a small, green school in a modern and sustainable building.
